MATERIALS I FORMES

15/05/2012

○ La triccaballaca està feta de fusta gairebé tota, és a dir que com que té tres maces i unes plaques, només són les plaques les que estan fetes d'un material diferent (l'estany). En canvi totes les altres parts de la triccaballaca estan fetes de fusta. La triccaballaca és molt simple: té un mànec tres maces i unes boles de fusta.

History

- This instrument from southern Italy was originated around 1500.
- It is an instrument that has 3 masts. The tips of the masts are round-shaped and elongated.
- Formerly the instrument was made from wood, but nowadays is made from other materials such as light iron.

Other information

- Triccaballaca is a traditional instrument and it is infrequent to find it in a concert or in a normal place. But triccaballaca is usually found in regional festivities.
- The way of playing triccaballaca is to catch the handle and shake it up and down so the decks beat each other.
